Answers to two of your embedded questions -

- I've not gotten any updated bdc documents from ICF or BOR so I'm just going by what's on the their website.

- the old schedule (from August) of EIS review that I have says Batch C is aquatics, terrestrial, surface water, water quality and supply.

Subject: basic quick questions on bdc

Hey Karen and Tom,
Just want to make sure I understand where we are w/ all requested feedback from the BDCP leads.

Red-flag analysis on EA: We're going to provide something by March 30 date, incorporate it into our 'detailed' review. This includes BH and my feedback on the appendices we reviewed and anything else we have on the EA (I have not read it).

Contaminants Appendix to EA & Water Quality Chapter: The update to the contaminants appendix (formerly known as the toxins appendix) was supposed to be available 3/16. Karen have you received any of emails from ICF about docs being available? I'll ask about this today. I haven't started this review process yet (not even reviewing the december update to the 'toxins' appendix) and I don't think we can make their 3/27 deadline for comments on 'batch c'. Do either of you have a document that ID's what chapters are in which 'batch'? FB and others refer to this a lot ... sometimes w/ exasperation b/c I keep asking about dates by which they want feedback.

Issue Papers: Conveyance -- do we want to add anything to Mike Tucker's document to send around?

I'm available by mobile phone today until 2 PM. Hopefully I won't be called to pick up Bennie before then!

Erin Foresman

Environmental Scientist & Policy Coordinator,

US EPA Region 9 C/O National Marine Fisheries Service Central Valley Office

650 Capitol Mall Suite 5-100, Sacramento, CA 95814
